

AI Automation for Pharmacies, Designed to Scale Patient Care

We turn routine administrative tasks into intelligent automated workflows. From prescription processing to patient communications, we enable organizations to unlock new efficiencies so pharmacies can focus on what matters most: **Patient Care.**

Who We Are

TJM Labs combines deep pharmacy expertise with advanced AI and engineering. Our team of pharmacists and engineers work side by side to design automation that reduces administrative burden, improves accuracy, and frees staff to focus on patients.

Why Choose Us

Dual-Expert Model™

Every implementation pairs a pharmacist and an engineer.

Proven Results

LinkRx saved \$500K in less than 2 weeks!

Vendor-Agnostic

Integrations with 15+ pharmacy systems.

Dedicated Support

We adapt your bots as your operations evolve.
